## Thayer Coggin Unveils Enhanced Liquid Table by Designer Rick Lee at Spring 2024 High Point Furniture Market

High Point, NC – Thayer Coggin, the renowned American furniture maker, is proud to announce the commercial debut of the Liquid Table, a stunning piece of functional art designed by the visionary Rick Lee. This contemporary showpiece will be on display during the Spring 2024 High Point Furniture Market, marking a new chapter in the evolution of this surreal table design.

Crafted from sand cast aluminum, the Liquid Table is a testament to ingenuity and craftsmanship. Its fluid form, inspired by the graceful motion of a drop of milk or liquor, exudes elegance and whimsy. The table consists of a unique flowing metal design that creates the illusion of a pouring and pooling liquid, with an off-centered leg adding to its dynamic visual appeal.

Available in polished aluminum or in any Thayer Coggin powder coat finish, the Liquid Table seamlessly blends into any interior or exterior space, serving as a versatile addition as a side or accent table. Its sleek and smooth texture, achieved through meticulous polishing or powder coating, invites touch and admiration.

Originally launched in 2002 at the prestigious Milan Design Week, the Liquid Table quickly garnered attention and acclaim for its surreal sculptural design. Its limited edition debut received notable press recognition from the New York Times and earned a prestigious furniture award from Industrial Design Magazine.

Building upon the success of its predecessor, the new edition of the Liquid Table has been enhanced with larger dimensions and optimized for higher production, making it more accessible to a broader audience.

"We are thrilled to reintroduce the Liquid Table to the world," said Phil Miler, Vice President of Sales for Thayer Coggin. "Rick Lee's visionary design and our commitment to quality craftsmanship have culminated in a truly remarkable piece of furniture that transcends the boundaries between art and functionality."
