### **DETAILS**

Making its debut with Compositions at High Point Market this spring, Celebrity Designer Charles Neal will unveil his first whole-home furniture collection that is designed to make a statement of grandeur in modernized-traditional settings. Titled, ***The Everly***, his fresh, yet timeless, outlook on design makes a quintessential statement that marries dark wood with curvaceous metal scrolls, rich fabrics, and complementary accents on pieces for the bedroom, living or dining areas. Neal's collection is part of a revitalization that is occurring at Compositions to bring a fresh, new perspective to the company's design portfolio.
