DOUG FRATES GLASS SERVES AS THE LEADING PROVIDER OF ALL-AMERICAN ART GLASS

FOR IMMEDIATE RELEASE:

Springfield, Ohio - January 12th, 2018 - With a steady market increase in luxury goods, a new age of luxury is quickly approaching. Doug Frates Glass is at the forefront of this emerging trend, creating avant-garde glass art pieces that are celebrated internationally among artists. Today, they have much to celebrate including a new state of the art studio in Springfield, Ohio and national recognition as a leader in decorative glass. Serving both the residential and commercial fields, Doug Frates Glass has developed a footprint across America with handblown glass, custom to each project, creating an emotional impact on their clients.

Doug Frates Glass has truly taken artisan craftsmanship to a new level with the true attention to detail offered with each design. Every piece is unique and made to the highest quality possible. With a offer to create custom glass for projects small and large, the possibilities are limitless from color to style. Through this customization process, the client can express their personal creativity and style.

Striving to create singularly beautiful, interestingly modern, elegant art glass pieces is what the team does best. The full collection consists of vases, bowls, wall mounts, platters, sculptures and lighting; however, Doug Frates of Doug Frates Glass does not constrict himself to these lines.

Doug Frates explains his creative process: "When it comes to glass blowing, my process begins with a dream and my mind and hands ultimately bring this vision to life. Since my experience is so hands-on, I always develop a strong emotional connection to each piece. I am challenged by the creative process because I want my audience to feel visually connected when they look at each piece and see how it can bring life into their space."

Pushing boundaries has allowed Frates to achieve what others in the art glass industry have only dreamed of achieving. Among many awards and accolades Doug has received since founding Doug Frates Glass, Art Glass Today ranked Doug as one of the Top 60 Glass Artists in the World.

Proudly made in the United States and hand crafted from the highest-quality materials, pieces range between \$50 and \$100,000.00, to the trade only. You can see the complete collection at www.DougFratesGlass.com.

All Doug Frates Glass products are available for select photo shoots and editorial features. For media and press inquiries or for more information about Doug Frates Glass, please contact Mary Beth De Loache at Mary Beth Public Relations - (336) 266-0110 or mb@marybethpr.com.
