CELEBRATE YOURSELF! WHO NEEDS A LOVER WHEN YOU HAVE A KOKET CHAIR?

The Ever-edgy Luxury Decor Brand KOKET Is Celebrating Self-love This February With Their Sexy Feminine Chair Designs

2019 - February is all about love and romance! For some, this is wonderful as they enjoy their partners and celebrate the heart-pounding euphoria of love. For others, this celebration of love is more painful than heartwarming as they are reminded of their lack thereof. But the truth is, whether you spend your nights alone or with a lover, there really is no greater love than self-love! So, remember to always celebrate yourself! And for those of you that are alone, but wish you weren't who needs a lover when you have a chair?

Ok so maybe that is a bit extreme! But really, have you ever settled into a glorious chair? Felt your skin slide across its sumptuous upholstery as its frame wraps around your body. Pulling you in, holding you just so?

At KOKET we are all about making love happen and celebrating femininity! Our sexy and bold designs are created to serve as empowering statement pieces. And, in particular, when it comes to our lavish chairs each one exudes power and sensuality, taking inspiration from the female form, with their sinuous curves, delicate angles, and the perfect blend of soft comfort yet firm support.

So, during this month of love, at KOKET we are celebrating self-love. Slip into a KOKET chair and feel your sexy, female force radiate as the flawlessly proportioned frame hugs you. Lean back, lay your arms across the perfectly positioned armrests, cross your legs, and feel the power of self-love!

KOKET - The brand

Daring design aesthetic, high impact shows, lavish presentations and the notoriously risqué ad campaigns, have an uncanny way of conveying KOKET's mission which is to create highly desirable empowering statement pieces.

The innate desire to seduce and entice its devotees is perfectly illustrated in the brand's Guilty Pleasures & Exotic Opulence Collections. Composed of dramatic casegoods, luscious upholstery, exquisite lighting and decadent furs; all of which mesmerize with their magical mineral medley, lux metallics, vibrant jewel tones and exotic feathers.

Since its inception in 2010, the U.S. based luxury brand's savoir faire has been intoxicating. The line is manufactured by master artisans and jewelers who leave no detail or element forgotten. KOKET's principal designers are a group of exceptionally artistic and well-rounded product designers who are led by Founder & CEO Janet Morais' creative eye and almost fanatic drive for perfection. The brand is managed by an elite staff of highly skilled individuals who strive to create moments of design seduction while seamlessly selling the collection worldwide through a selective network of interior designers and luxury retail stores. The darling of the furniture industry carries an admirable list of accolades in the film industry, major international retail projects, top world hotels and hundreds of publications in the most renowned shelter and luxury publications.
