

Mix, Match and Relax

– Design your own coffee table!

When design and functionality meet individuality. A classic yet versatile coffee table series from Skovby.

Designer Per Hånsbæk has created the elements for you to choose the combination to match exactly *your* home.

Choose the shape, wood sort, finish and size of your tabletop and combine with your choice of the classic wooden legs, the edgy steel frame, or the functional height-adjustable base.

Combining multiple coffee tables emphasizes a lively atmosphere in your living room. Joining two tables or more with legs in different heights or shapes also offers a functional and beautiful option to personalize your space.

We have created the framework; you choose the elements.
