

MODERN LODGE

To some “Modern” conveys the image of clean, un-complicated, yet cold. “Lodge” on the otherhand is cozy, but often overly adorned with woodland animals, plaids and buckles. This new “Modern Lodge” takes the best of both worlds and leaves the dross behind. To achieve this look keep the patterns simple and mix rich textures like cotton velvet, ribbed knit, and hearty jute. Muted colors combine perfectly with warm neutrals. Keep accents meaningful and minimal. Dont forget to add a casual layer that drapes with ease across the foot of the bed to finish a look that is both fresh and warm, just like a crackling fire.
