

FOR IMMEDIATE RELEASE

Thayer Coggin Introduces the Good Wish Dining Chair: A Modern Marvel Inspired by Tradition

High Point, NC – Thayer Coggin, a pioneer in modern furniture design for more than 70 years, proudly announces the debut of the Good Wish Dining Chair at the Spring 2024 High Point Furniture Market. Renowned for its legacy of innovation and craftsmanship, Thayer Coggin continues to redefine modern living with its latest creation.

Designed by the visionary Rick Lee, the Good Wish Dining Chair seamlessly merges tradition with contemporary flair, reshaping the modern dining experience. Inspired by the cherished tradition of the turkey wishbone from holiday gatherings, this innovative chair features a distinctive three-legged design that exudes sophistication and charm. Each chair is meticulously crafted with a steam-bent plywood frame adorned with maple embellishments, creating a sleek, ergonomic form that embodies comfort and style.

Available in both arm and armless variations, the Good Wish Dining Chair offers versatility to complement any dining space. Its graceful upholstery, tightly set onto the wishbone-inspired frame, showcases exquisite top-stitch detailing.

Phil Miller, Vice President of Sales at Thayer Coggin, expressed his enthusiasm about the chair, stating, "We are thrilled to introduce the Good Wish Dining Chair to our discerning customers. With its blend of comfort, elegance, and style, this chair epitomizes modern living and represents the perfect addition to elevate any dining experience."

One of the defining characteristics of this exclusive design is its dynamic balance between nostalgia and innovation. The option of wood or metal finishes further enhances its appeal, ensuring seamless integration into any interior.

The Thayer Coggin showroom, located at 230 South Road, High Point, NC, will showcase the Good Wish Dining Chair during the Spring 2024 High Point Furniture Market from April 13 thru April 17.
