Biomorphic Nebula Light Shines On Through All Natural Banaca Fibers

(Rancho Santa Fe, CA) September 11, 2024 – Highlighting the launch of the Stephanie Parisi Collections at High Point is the Giasone Collection, a curated series of art and sculpture representing a fusion of science and art with a focus on bridging the gap between aesthetics and wellness. (www.stephanieparisistudio.com) (<https://online.flippingbook.com/view/248659259/>)

According to Parisi, art has the power to create a positive impact on individuals' lives and this collection aims to promote transformation and well-being. In a world that often feels chaotic and impersonal, this collection offers a quiet pampering aesthetic supporting serenity and well-being.

The Giasone Collection is inspired by the ancient Greek myth about Giasone (Jason) who seeks the Golden Fleece, the magical artifact with powerful healing abilities. Beyond providing drama and color to a space, the pieces are specifically offered with the intent of life enriching experiences of peace, tranquility, and harmony which balances body, mind and spirit.

Nebula Light, from the Giasone Collection, is entirely handcrafted of Banaca, a fiber that is from the Philippines and woven by a community of weavers in the province of Bicol. The Nebula fixture acts as a conduit to nature's calming influences nurturing both the body and mind.

Stephanie Parisi Collections debut at Highpoint Market, showroom IH502 – IHFC, Floor 1.

NEBULA LIGHT FIXTURE

Within the BIOMORPHIC FORM of the NEBULA LIGHT FIXTURE, lies a gentle reminder that we are interconnected with nature drawing upon its inherent healing properties. Nature and its representations are recognized for their ability to reduce blood pressure and alleviate stress, while enhancing mental flexibility.
