

DECK

GLOSTER
TEAK, CRAFTS & INNOVATION

INSPIRATION & OVERVIEW

Broad, substantial, trusty and true, a ship's deck is literally the foundation of any voyage of discovery. Perfectly engineered to bear the weight of endless possibility and endure whatever tribulations may be encountered along the way, generous slats of resilient teak have been used for centuries to craft this impromptu footing for weary travellers, bold adventurers and pleasure seekers alike.

Inspired by this most integral part of the fastest and finest sailing vessels of yesteryear, Deck's simple, yet visually striking design invokes an uncompromising air of quality and craftsmanship. Broad, long teak slats are refined with impeccable precision by talented craftsmen and women. Every section is perfectly straight, perfectly spaced and perfectly finished in a series of complimentary curves. Elegant and uniform, the linear style of Deck exemplifies the Gloster design aesthetic.

Charged with the freedom of movement and possibility, Deck's newly introduced modular lounge furniture perfectly parallels the design language of previously launched Deck dining tables. With an equally unmissable presence, large, low and flat bases provide opportunity for endless seating combinations of unrestricted size. The substantial, freestanding, weighted backrests and matching sumptuous scatter cushions can be placed as you please, to suit individual preference for a truly tailor-made seating experience.

Following the same design cues, teak coffee tables and sofa tables complete the Deck modular lounge range and provide additional opportunity for imaginative configuration with size and height allowing for stand-alone statement or seamless integration.

ABOUT THE DESIGNER

Born in 1967, Henrik Pedersen graduated as a fashion designer in 1990 and now runs 365°, a Danish design studio based in Aarhus that focusses on lifestyle-based design, ranging from furniture and lighting to projects for clothing and food packaging companies. His furniture designs are characterized by elegance, exquisite materials, and formal clarity. Henrik says "In our design solutions we adopt an international approach since our market place often spans the world. Our clients are both Danish and international enterprises and from many different lines of business. An important aspect of our work is keeping up with market trends, and therefore travelling, exploring and being inspired by the moment are essential to being able to see beyond tomorrow. For me, design must have a meaning. The shape, colour and choice of materials have to complement each individual design. Good design is functional, beautiful and easy to understand."

ABOUT GLOSTER

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
