GLOSTER
TEAK, CRAFTS & INNOVATION

INSPIRATION & OVERVIEW

To pinpoint a desired destination and take an unwavering path towards the identified goal, is the timeless task of the navigator. Pursuing one's adventures with such single-minded clarity invariably leads to inspired and fulfilling adventure. And a similar motivation has undeniably shaped Glyn Peter Machin's equally singular development of the Navigator collection for Gloster.

Shaped by memories of a classic era of luxurious travel when adventurers, explorers and ambitious individuals sought portable comfort as they travelled, Navigators elegantly contoured teak frame, brushed stainless steel components and tailored integral cushioning, are contemporary interpretations of vintage campaign furniture.

The versatility and practicality of folding furniture is transported to a new era through creative styling and sophisticated detailing. Focussed firmly on the 'less is more' principle of product design, both the folding chairs and stowable table that combine to form the chic Navigator trio artfully express traditional Danish Modern influences, with an added flare of opulence.

The flowing form of the unique, inline folding X-frames are achieved with ingenious, hidden engineering and paired perfectly with both fixed and articulated, brushed stainless steel junctions - cleverly elevating heritage style to pioneering plush.

These contemporary interpretations of vintage campaign furniture are equally at home in any space; from yacht deck to suite terrace or penthouse balcony, versatile Navigator's clearly defined combination of impressive scale and stylish practicality mean it's as easy to live with as it is to love.

Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
