

# Amity Home Introduces New Beauty Sleep Essential

Amity Home, known for its luxurious home textiles, is proud to introduce the latest addition to its collection: the *Beautycase*—a silk pillowcase that promises to revolutionize your beauty sleep. Aptly named (Care)ssa, this pillowcase is designed to care for both your skin and hair, ensuring you wake up refreshed with no crease lines on your face and no frizzy hair. Made from 100% silk, the *Beautycase* is perfect for those looking to enhance their nighttime routine with a touch of luxury and self-care.

For generations, a not-so-secret legend has been passed down: sleep on silk satin to prevent wrinkles and frizz. The sleekness of silk reduces friction between the fabric and your skin or hair, helping prevent those dreaded morning lines on your face and taming frizz overnight. Beyond its beauty benefits, the natural properties of silk help retain moisture, making it less likely to deplete your skin of hydration as you sleep. And unlike synthetic versions, the *Beautycase* offers natural temperature regulation, ensuring you stay cool in the summer and warm in the winter without trapping heat.

Amity Home's *Beautycase* is more than just a pillowcase; it's an investment in your nightly skincare and haircare routine. With its luxurious feel and functional benefits, (Care)ssa is the perfect companion for a good night's sleep—and a beautiful morning.
