LAUNCH OF SPRING 2025 CAPSULE COLLECTION

“Monterey” in Collaboration with Bernard London

Julian Chichester is delighted to announce the launch of a new collaboration with **Bernard London**, focussing on the meticulous design of 4 pieces which are available in either a blue Lacquer or subtle Greige and feature a fresh new finish for **Julian Chichester**, Fabric Cork.

The collaboration makes an exceptional pairing, **Bernard London**, known for its innovative approach to interior design, focuses on creating spaces that reflect the individuality and lifestyle of its clients. In tandem **Julian Chichester** offers an impressive selection of beautifully handcrafted pieces featuring innovative layered finishes that combine elegance with functionality. Together, they create harmonious environments that not only showcase exquisite craftsmanship but enhance and elevate the appeal of any space with timeless pieces that add a layer of delight.

In partnering with Julian, **Bernard London** wanted to create a series of pieces blending iconic mid-century design nuances with a contemporary twist – a defining characteristic of the **Julian Chichester** brand. The aim was to develop a functional yet beautifully curated collection and the use of cork with colour injections from the high gloss lacquer reflect the brand’s personality and design aspirations. **Bernard London** also wanted to embrace a sustainable approach via the use of cork, hoping Chichester would push the boundaries of this material. And as Jen Bernard commented, “*they not only met but surpassed all expectations, delivering a high-end, sleek finish that is both timeless and innovative*”.

Drawing inspiration from the natural curves and fluidity of their heartland along the rugged coastline of Northumberland, **Bernard London** saw beauty in the juxtaposition of the use of cork, while the lacquer and brass inlay details add a refined nod to the heritage of the **Julian Chichester** mainline collections.

This partnership provides a unique opportunity to deliver a collection that combines heritage with innovation - exquisite pieces that are not only visually stunning but also functional and worthy of a global stage."
