FOR IMMEDIATE RELEASE

## BDI Introduces the Contour Headboard Cushion Addition for LINQ and Kava Bedrooms

**CHANTILLY, VA** (April 26, 2025)– BDI, a leader in modern, thoughtfully-designed furniture, debuts the new **Contour Headboard Cushion**, an elegant and functional addition to the bedroom. Designed for compatibility with the **UP-LINQ** and **Kava** bed designs, this plush accessory brings elevated comfort and support to sanctuary spaces.

The Contour Headboard Cushion is available in queen and king sizes and is meticulously crafted to provide a supportive and comfortable surface for reading, lounging, or simply relaxing in bed. The contoured design aligns beautifully with the headboards of the UP-LINQ beds and the new Kava beds, enhancing the collections' clean, architectural aesthetics.

Available in a selection of premium neutral fabrics or black leather upholstery, the cushion transforms the headboard into a supportive surface without compromising the bed's clean design. The cushion cover is fully removable, allowing for easy care and maintenance, while the internal structure ensures long-lasting support and durability.

“Perfectly tailored to pair with both the LINQ and Kava bedroom collections, the cushion maintains a unified aesthetic across your space,” said Matthew Weatherly, Associate Design Director of BDI. “It also coordinates beautifully with the cushioned top of the **LINQ Bench**, available in matching leather or fabric finishes. Together, they create a cohesive and elevated bedroom environment that balances comfort, utility, and modern design.”

The Contour Headboard Cushion will be available through select retailers in June. More information can be found at [bdiusa.com/contour](https://www.bdiusa.com/contour)
