BDI Furniture Unveils New Angle on Bedroom with the Kava Collection

Group Expands BDI's Bedroom Line for Sophisticated, Connected Lifestyles

CHANTILLY, VA – April 25, 2025 – BDI Furniture, renowned for its innovative and design-forward home furnishings, announces the launch of its latest bedroom ensemble, the **Kava Bedroom Collection**. This new collection blends contemporary aesthetics and practical functionality, offering a sophisticated retreat for the modern home.

Following the success of the LINQ collection introduced in 2022, Kava marks BDI's continued evolution in bedroom furnishings for connected lifestyles. Kava boasts a stunning, angular design that brings intrigue to bedroom spaces, along with modern conveniences that make the collection both refreshing and timeless. Crafted from premium oak veneers, the collection is available in two finishes—Natural Walnut and Washed Oak—capturing a warm, neutral palette that seamlessly integrates into any décor.

A Cohesive Bedroom Suite Designed for Modern Living

The Kava Bedroom Collection includes a curated range of pieces designed to offer both beauty and utility:

- The **Kava Bed**, available in Queen and King sizes, features a striking floating platform frame and a beautifully angled headboard that enhances both the aesthetics of the collection as well as ergonomic comfort while sitting up in bed. Both beds feature adjustable legs and frames for various mattress sizes, and a cushioned platform for comfort. The headboards incorporate dual USB-C power stations discreetly into the design for charging phones and other essentials, while a dimmable lighting touchbar sets the mood with a simple touch.
- **Kava Nightstands**, available in 28" and 21" widths, offer discreet storage, soft-close drawers, and built-in power and charging ports to keep nightstand clutter to a minimum while providing convenience at arm's reach. Both nightstands include a sliding top panel that extends forward, bringing essentials closer while sitting up in bed.
- **Kava Storage** pieces include a 6-drawer dresser and a 5-drawer chest that deliver smooth-operating drawers and ample storage in a sleek silhouette. Both feature soft-close drawers, a removable velvet-lined accessory tray for jewelry or smaller accessories, and a STURDY-compliant interlock system for safety.

- A **Storage Bench**, designed to complement the collection with its angular design, provides a storage shelf beneath the bench—perfect for shoes and everyday essentials.

"With the Kava Collection, BDI continues to redefine the bedroom space by bringing smart functionality to a beautifully crafted bedroom suite," said Matthew Weatherly, Associate Design Director at BDI. "Kava offers a tranquil escape, embodying a design that resonates with both contemporary and classic sensibilities, yet with all the features that make it ideal for today's busy and connected lifestyles."

The Kava Bedroom Collection will be available through select retailers in Q2. More information can be found at bdiusa.com/kava.
