

Memoire Design™ by Mainly Baskets® Home Introduces the Somerset Collection

A New Collection Rooted in Heritage, Comfort, and Timeless Living

Memoire Design™ by Mainly Baskets® Home

ATLANTA, GA — Memoire Design™ by Mainly Baskets® Home proudly introduces The Somerset Collection, a thoughtfully curated assortment of handcrafted furnishings and decorative pieces inspired by the warmth and quiet elegance of the English countryside.

Designed as a reflection of relaxed refinement, The Somerset Collection embraces timeless form over fleeting trends. From sculptural woven dining chairs and occasional tables to decorative baskets and accent pieces, each design embodies the balance of comfort, craftsmanship, and understated luxury that defines Memoire Design™ by Mainly Baskets® Home.

The launch also marks a meaningful moment for Memoire Design™ by Mainly Baskets® Home as the company's first mother-daughter design collaboration. Shaped by a shared sensibility and an appreciation for heritage craftsmanship, the collection reflects a dialogue between generations, blending classic influence with a fresh perspective.

Handwoven in natural materials and finished with the artisanal detailing the collection introduces a range of statement seating, accent tables, decorative accessories, and storage pieces designed to bring warmth and character to both traditional and modern interiors. Signature introductions include The Somerset Dining Chair, The Somerset Clover Chair, The Eden Chair, The Somerset Club Chair, The Somerset Bench, and a series of woven side tables, baskets, and decorative accents.

Balancing sculptural silhouettes with relaxed comfort, the collection embraces the quiet luxury movement through craftsmanship, authenticity, and timeless design rather than excess. Each piece is intended to become part of daily life and passed down for generations to come.

The Somerset Collection will debut at **High Point Market Fall 2026**.
