Fireside Lodge Furniture's Handcrafted Walnut Pieces Featured on HGTV's "Maine Cabin Masters: All Inn"

Live-edge walnut furniture outfits guest suites at the new Waters Run Bed & Breakfast in Monmouth, Maine, as seen in Episode 103 on HGTV and Magnolia Network

PEQUOT LAKES, Minn. – August 14, 2026 – Fireside Lodge Furniture Company, a Minnesota-based manufacturer of handcrafted rustic furniture, announced that its live-edge walnut furniture is featured in Episode 103 of Maine Cabin Masters: All Inn, the HGTV and Magnolia Network spinoff series starring Chase and Sarah Morrill.

The series follows Chase and Sarah Morrill, stars of the original Maine Cabin Masters, as they transform a 12-acre, 1800s-era estate in Monmouth, Maine into Waters Run Bed & Breakfast. For the project, the Morrills' team partnered with Fireside Lodge Furniture to hand-select and craft furniture for multiple guest rooms, from bed frames and headboards to nightstands.

Every live-edge walnut piece was handcrafted in Fireside Lodge's workshop to bring warmth, character and authenticity to the guest rooms, with the same attention to detail carried from construction through final installation. The furniture helped transform rooms that once featured dated wallpaper and worn flooring into refined, comfortable suites that reflect the property's Maine roots.

Waters Run Bed & Breakfast is now open for reservations in Monmouth, Maine. Maine Cabin Masters: All Inn airs on HGTV and Magnolia Network.
