

FOR IMMEDIATE RELEASE

CAMBRIA INTRODUCES FOUR NEW QUARTZ DESIGNS INSPIRED BY THE BEAUTY AND MOVEMENT OF THE NATURAL WORLD

Quintessa™, Merivale™, St. Loxley™, and Wyncrest™ expand Cambria's design palette with four new ways to bring warmth, character, and emotion into the home

Le Sueur, MN/August 26, 2026 – **Cambria**, the leading American-made, family-owned producer of natural quartz surfaces, introduces four new designs to its expansive portfolio: the artful Quintessa, organic Merivale, expressive St. Loxley, and innovative Wyncrest. Each brings a distinct interpretation of warmth, character, and organic movement to the home.

This launch captures the aesthetic and sensibility shaping interiors today. The current design landscape has shifted from cool and pristine to warm, layered, character-rich, and lived in. Creams, taupes, and earth tones are stepping to the forefront along with an increasing desire for depth, organic movement, and texture.

Today, luxury is more about feeling. Cambria's latest introductions go well beyond beautiful surfaces: They are design tools for creating atmosphere, and they impact the way rooms—and the people who live in them—feel.

Cambria design shown: Quintessa

“Today’s most compelling interiors feel collected rather than decorated, layered with texture, character, and a sense of story,” said Summer Kath, Cambria Executive Vice President of Design. “With these new designs, we capture that feeling through surfaces that feel organic and storied, yet of the moment. Each has its own personality, but together they reflect our belief that a well-designed home is built over time, through the materials and choices that make it uniquely yours.”

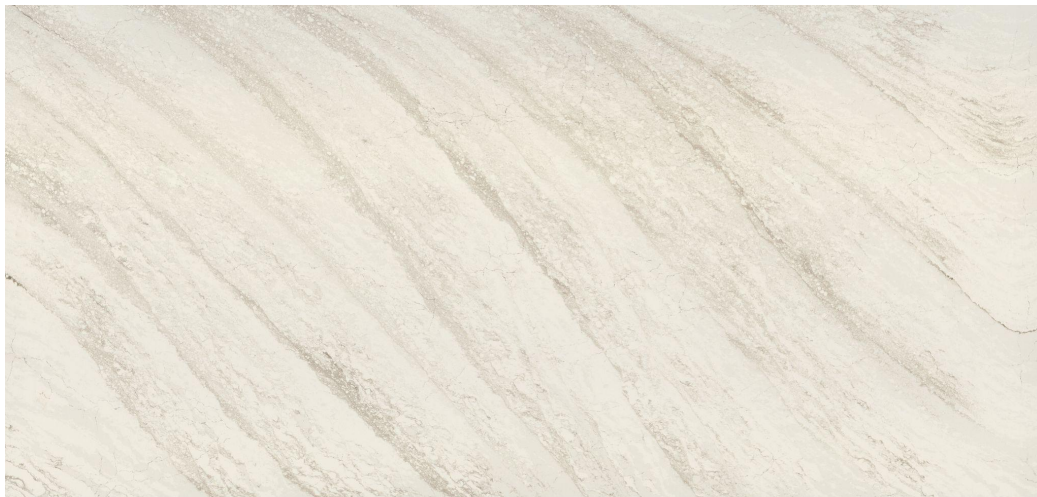

That spirit of a life well-designed informs this new release. The designs complement interiors that mix old and new, embrace individuality, and follow the rhythms of daily life. They allow these surfaces to suit both heirlooms and modern pieces as well as spaces with quiet neutrals and bold style.

Meet the New Designs

QUINTESSA™

A creamy white background sets the stage for subtle sable-colored veins in this soothing, organic design. Finish options: Polished and Cambria Satin™

- Pairs beautifully with trending natural woods, from lighter tones to rich walnut
- Versatile: suits traditional, transitional, modern, and everything in between
- Ideal for statement applications: full-height backsplashes, fireplaces, bath cladding

MERIVALE™

A warm white background delicately laced with organic gold veining creates a serene surface with subtle layers of depth and movement. Finish options: Polished and Cambria Satin™

- Its subtlety allows cabinetry, lighting, hardware, and art to shine
- Perfect for customers who want warmth without a lot of visual movement

ST. LOXLEY™

A coastal-inspired design featuring fluid waves of soft browns, neutral greens, hazy grays, and sandy whites. Finish options: Polished and Cambria Satin™

- Artistic, quartzite-inspired architecture creates a dramatic yet organic statement
- Brings an especially beautiful nature and wellness connection to a space

WYNCREST™

Ivory and alabaster tones form a low-contrast background for veins of subtle, cascading champagne alloy, creating a dramatic, sophisticated surface that shimmers under light. Finish options: Polished and Cambria Satin™

- Features Cambria's proprietary alloy in subtle champagne brass
- In Cambria Satin, the alloy is slightly raised, adding a tactile quality
- Coordinates well with a wide range of warm metals

“The breadth of these introductions gives designers greater freedom to create spaces that feel personal to their clients,” noted Kath. “Together, they provide four very different expressions of where interiors are headed: warmer, richer, more tactile, more personal, and more emotionally connected.”

Cambria design shown: St. Loxley™

The new designs expand the possibilities for Cambria surfaces throughout the home, from kitchens and baths to bars, fireplace surrounds, statement walls, furniture, and other custom applications. They become part of the backdrop to everyday moments, while offering the durability to remain part of the home as tastes and lives evolve.

Like all Cambria quartz surfaces, Quintessa™, Merivale™, St. Loxley™, and Wyncrest™ are nonabsorbent, maintenance free, and crafted in the United States from uniquely pure quartz. The new designs will be available starting August 26.
