# Milton & King Presents Wild at Heart - Animal Instinct, Artfully Drawn

A WALLPAPER AND FABRIC COLLECTION REIMAGINING ANIMAL PRINT  
THROUGH PAINTERLY DETAIL, EARTHY COLOUR AND CRAFTSMANSHIP.

Milton & King presents **Wild at Heart**, a Milton & King Studio wallpaper and fabric collection that reimagines animal print through painterly detail, earthy colour and refined scale. Created to bring character, rhythm and instinct into interiors, the collection reflects the brand's commitment to craftsmanship, quality and print-on-demand production.

Each design in the Wild at Heart collection started on paper - It was important to me to create artistic interpretations of these iconic markings rather than literal depictions, using the creative process to capture the character of each animal in a way that feels timeless and considered. It's those details and 'imperfections' that give each design its own distinct personality and I hope that care and attention comes through across the collection.

Inspired by the graphic language of animal markings, Wild at Heart explores the instinctive beauty of pattern through an artistic, interior-led lens. Leopard spots, zebra stripes, snakeskin scales, feathered plumage, fawn markings and cowhide forms come together to create interiors with character, rhythm and texture.

Mid-century influences, heritage western references and warm earthy palettes guide the collection's design language. Hand-rendered artwork, gouache painting, marker work and fine pencil detail bring a crafted quality to each pattern, while true-to-life tones sit alongside understated monochrome palettes.

**Key highlights include:**

**Animal-inspired designs** – six expressive patterns reimagining leopard, zebra, snake, fawn, feather and cowhide markings

**Painterly detail** – hand-rendered artwork, gouache texture and fine pencil accents that bring movement and artistry to the surface.

**Metallics** – selected designs elevated with a light-catching finish that adds depth, shimmer and a refined sense of drama.

Printed-on-demand, each wallcovering is produced to order, reducing waste while maintaining exceptional quality. The collection is available across a range of substrates including:

- Non-Woven Wallpaper
- Grasscloth
- Metallic
- Commercial Type II Vinyl
- Fabric (USA only)

This approach gives designers and homeowners the freedom to build expressive interiors with confidence, whether creating a statement wall, introducing texture through specialty finishes or carrying pattern across walls and soft furnishings.
