A NEW SIGNATURE IN TEXTILE ART

NOURISON HOME TO UNVEIL A NEW DESIGNER COLLECTION AT HIGH POINT MARKET

Ridgefield Park, New Jersey — October 6, 2026 — Nourison Home today announced a new designer collection that begins with form. Positioned a step beyond Nourison's Prismatic collection, it brings freeform, sculptural rugs handcrafted in New Zealand wool and silky nylon, and every design can be fully customized in size, shape and colorway.

The collection will be revealed on Friday, October 16, 2026, on the eve of High Point Market, at a private preview in Showroom IH203, with drinks and a conversation with designer Alexander Peykar about the inspiration behind it.

"Rugs with the presence of sculpture, experienced not simply as floor coverings, but as works of textile art."
