

Skovby introduces #110 Dining table

October 12th 2026

Joining the collection in September 2026, the new #110 Dining table combines elegant design with a thoughtfully engineered extension function. Hidden beneath the tabletop is an integrated extension leaf that unfolds effortlessly when the table is pulled apart. The functional extension system can be operated by a single person, making it quick and easy to create additional space around the table.

With the ability to extend seating capacity from 6 to 12 people, Skovby #110 is ideal for both everyday use and larger gatherings.

The rectangular tabletop features a sharp and elegant profile, while the base with angled, wedge-shaped legs gives the table a clean, modern, and distinctive expression.

#110 Dining table is designed by Per Haansbæk / Haansbæk Design and crafted in Denmark.

Materials

Available various wood and laminate table top finishes
