

ASTERIA™

NEW COLOUR AND EXTENDED FLEXIBILITY

The popular Asteria™ lamp series is now evolving with a new colour and a new extended flexibility to change the brass part of the lamp into another metal as trends change and to advance the sustainable life of the design.

ACHROMATIC BLACK

Black is everlasting and marks an elegance that suits every style and interior, making it the perfect match for the popular Asteria™ collection.

The sleek and minimalistic shape of the Asteria™ is inspired by a shooting star in the sky and the lamp collection has a built-in LED panel with a soft white diffuser that ensures a glare-free light. The new black colour will create a beautiful contrast to coloured walls in the home and complement the monochrome Scandinavian minimalism.

ASTERIA™ PENDANT METAL COVER

UMAGE has designed a metal cover for the Asteria™ pendants, to ensure a flexible design with a secure and sustainable life even as new metal trends come and go.

Exchange the brass parts on the Asteria™ pendants for steel or black in minutes to create a new look and style for the design and find the perfect match for your home.

Available for Asteria™ mini and Asteria™ medium.

At UIMAGE, we care about everyone we influence. We make functional and timeless designs that last, we optimise storage and transportation costs with flat-packed designs, to make luxury accessible to you. The aim is to save the environment so that you can save on living.
