## Founders

Nancy Pierce, has been modeling since her teenage years. Her love for jewelry design and fashion has been a way of life with sketching fashion ideas to hand making her own jewelry pieces. Nancy designs all of the pieces for Crystamas from concept to inception.

Robert Pierce has been trading in finance for eighteen years along with overseeing family assets and allocating funds to various investments and venture capital opportunities. Robert handles all of the business and marketing aspects, exclusively focusing on Crystamas.

Why Crystamas: While putting up a Christmas ornament passed to Robert by his late father (which sadly broke), Nancy and Robert wanted to celebrate the birth of their twin daughters first Christmas and Hanukkah. They wanted an ornament that would be with their daughters each holiday in their lifetime.

After realizing most ornaments passed down through tradition were more sentimental than an actual quality piece, Nancy began sketching ideas of ornaments. When Robert saw the sketches, he had a “we have to make these,” moment. Creating forever heirloom ornaments and luxury gifts inspired by their daughters Crystamas the most luxurious homeware in the world was born.
