# CRAFTED FOR GATHERINGS

Introducing two new statement-making dining tables!

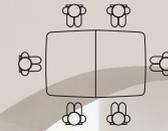

## #107 & #108

The new #107 and #108 dining tables: Timeless design meets supreme craftsmanship.

A rectangular tabletop with subtle curves blends classic aesthetics and organic beauty for any home. Thoughtfully angled legs add a unique touch while ensuring stability.

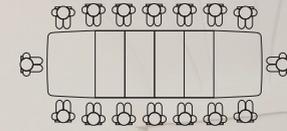

Both tables feature Skovby's extension capability, #107 accommodating 6 to 16 people or up to 22 people if you choose table #108 – making the design perfect for dinner parties, meetings or just a morning coffee.

**SMART STORAGE**  
 The table is designed to store up to six extension leaves underneath the tabletop, so you can easily adjust the table size.

**#108**

The #108 dining table features the well-known patented Skovby extension system, which divides the four legs of the table into eight. The three included extension leaves allow you to seat anywhere from 10 to 22 people around the table without compromising on quality, style, or space.

# EXCEPTIONAL COMFORT

## #810

Redefining elegance with modern flair!

The #810 chair is a stunning reinterpretation of the classic #64 dining chair. A new design presents a contemporary twist that is bound to captivate your senses.

Featuring a shorter backrest which embraces modern aesthetics while preserving the classic charm of its predecessor.

One of the most distinguishing features of the #810 chair is its uniquely curved rear legs, a graceful departure from the conventional straight lines. This subtle curvature adds a touch of softness to an otherwise strict profile, inviting a sense of balance and harmony into your surroundings.

## #815 - #816 - #817

A heightened backrest stands out as a prominent feature, elevating not only the visual allure of the chairs but also delivering enhanced support for the user. The seamlessly blending form, making this meticulous design the perfect choice for those who appreciate the fusion of contemporary elegance and ergonomic excellence.

The chair is available with two different base options. A slick swivel base, allowing users to effortlessly rotate the chair for a dynamic and flexible seating experience. Choose between a black or a polished alu base. The last one comes with classic wooden legs, providing a timeless and sophisticated look that seamlessly integrates with various interior styles.

# DUAL-ACTION DOOR DESIGN

Combining luxury with  
practicality

## #546

Introducing the dynamic #546 Dual  
Furn – a sleek design that seamlessly  
blends modern functionality.

At first glance, the cabinet presents a  
sleek and symmetrical facade, featuring  
a central split rolling front. A dual-action  
door design adds an element of intrigue  
to the exterior of the cabinet, giving it a  
timeless and sophisticated look.

The real magic happens when you  
interact with the cabinet. A gentle slide  
unveils a smooth 180-degree rotation  
that brings the interior to life, exposing  
three versatile shelves.

Perfect for design enthusiasts or those  
seeking space optimization, this cabinet  
is a conversation starter, combining  
luxury with practicality.

## INTRODUCING #308

Our latest creation – the #308 cabinet.

Like the popular #304, #306, and #307 series, the #308 cabinet offers the same timeless design and aesthetics, but with an intriguing new form. It has the same impressive spaciousness as our #306 sideboard but taking a space-efficient approach, the #308 ascends in height rather than stretching in length.

The refined, milled handles add a subtle yet distinctive detail to the front of the cabinet. The clean lines and lightweight base contribute to an elegant and stylish presence, enhancing your interior decor.

## MEET THE DESIGNER

### PER HÅNSBÆK *Architect & Designer*

Throughout more than three decades, designer and architect Per Hånsbæk has been the driving force behind the creations of an extensive and distinguished line of Skovby furniture.

In accordance with his design philosophy, each piece is a product of his pursuit of balance between form and function. Hånsbæk firmly believes that these two aspects are fundamentally linked, - with neither taking precedence over the other.

With a profound passion for the complex interplay of forms, materials, design aesthetics, and functionality, you will find that Hånsbæk's creations have a distinct expression and a sculptural appearance.

## Tables #140, #141, #142, #143

The whole concept behind this table design revolves around the distinctive gable detail adorning the ends of the tabletops - an element, which challenges the natural grain of the wood, imparting a sense of honesty to both the construction and the material itself. Making it possible to choose between a fixed and extendable top, this design boats countless possibilities.

### Tables #140, #141, #142, #143

Thoroughly calculated seating arrangements along the length of the table and at its ends, and particular attention to ensure easy accessibility for storing and adding extension leaves to the table, guarantee a seamless adaptability in the day-to-day use of the table.

### #842

The stackable chair reimagines the classic dining chair, prioritizing simplicity and a lightness. The armrest, attaching itself to the backrest, is a sculptural detail in the resemblance of a warm embrace, enhancing the lightness of the entire chair design.

The chairs being stackable adds a versatility that makes them suitable for a wide range of settings.

# THE DINING CHAIR WITHOUT ARMREST

## #844

Redefining our general perception of what a dining chair truly is, a substantial amount of attention has been dedicated to each detail of this chair, shaping and infusing it with modern and contemporary aesthetics that acknowledge Skovby's design legacy.
