**COURISTAN TO UNVEIL A ROBUST ARRAY OF NEW AREA RUG INTRODUCTIONS DURING
THE APRIL 2024 HIGH POINT MARKET**

*Sophisticated, Reimagined Neutrals, Innovative Use of Texture with Organic, Soft Geometrics and Abstract
Motifs Become Key Design Trends*

High Point, NC – March 28, 2024 - - Designed to appeal to a broad spectrum of aesthetics—with versatility, and durability in mind, Couristan is adding a fresh infusion of organic designs in a variety of looks to its handmade and machine-woven area rug assortment. With several new collections—as well as numerous line extensions—all set to launch at the High Point Market (April 13 – April 17), Couristan is showcasing its new direction with statement-making style as their hallmark for 2024. During the show, dealers may see Couristan’s latest introductions by visiting the company’s space G-6000A, Salon (Suites at Market Square). Construction on a permanent showroom in the hugely popular IHFC building is scheduled to begin in May of this year.

With close to 50 area rug selections now available, the company’s latest introductions feature distinct looks that are reflective of current trends in color, pattern and texture. Colors are warm and cozy, playing off each other for a striking finish. “We are seeing color used in a very subdued way – almost as an additional accent to the neutrality of it all. Colors complement the designs without being in your face or over the top, but they are there, and they are fabulous,” Marlys Giordano, Vice President of Product Development for the company.

“Our goal is to be able to offer several new collections at each market, with a renewed emphasis on handmade products. Couristan has become known for its outdoor offerings over the years, and we really want to show the arc of that product by introducing collections that are unique and speak to our 98-year legacy, as well as harkening back to how we began: in handmade rugs,” stated Giordano.
